India holds the promise of a most successful future”***

***- Klaus Schwab, Founder & Executive Chairman  
World Economic Forum***

## **RESURGENT INDIA – VISION 2020 IN METALS & MINERALS SECTOR**

The World economy is going through a slow-down phase, with a rather uncertain outlook in the short & medium term. All eyes are focused on South Asia and especially, China & India, which are seen as engines of growth for the world economy. India's growth rate is expected to surpass that of China pretty soon. In this back-ground, the prestigious institutionalized biennial event of IIM, MMMM2012 acquires special significance. It will include a High level International Conference on the above theme. Eminent speakers from India and abroad will present papers and address various issues covering practically every facet of the Metal industries. It will provide an excellent opportunity for inter-acting with luminaries from practically all corners of the globe, promoting business and giving a fillip to the growth & development of metal industries in the country, joint ventures, etc.

### **THE INDIAN INSTITUTE OF METALS**

The Indian Institute of Metals (IIM) – 65 years old - aims to promote and advance the study and practice of the science, design, engineering and technology concerned with minerals, metals, materials and their applications. With a membership base exceeding 10,000 and through a network of 52 chapters, IIM tries to realize these objectives through publications, seminars, workshops etc., IIM (always aims to) provides meaningful forums and opportunities for exchange, dissemination of information and technology innovations among industry professionals, researchers, teachers, students etc. The forthcoming event is one more opportunity for all (the) stake holders in the metals and materials sectors to deliberate on the theme of the Conference and participate in the evolvement of appropriate strategies.

### **About the Conference**

The Conference Theme has been carefully chosen to reflect the key segments of Metal and Mineral Sectors, that are vital for the growth of the Indian Economy.

## **METALS SECTOR**

The Metals Industry is a key sector in the Indian economy. It meets the requirements of a wide range of important Industries such as Electrical, Construction, Defence, Space, Infrastructure, Automobiles and Automobile Components, Packaging etc.

The Metals Industry in India has been growing from strength to strength and India has emerged as the fourth largest producer of Steel and the third largest producer of Stainless Steel in the world. India is expected to become the second largest producer of crude steel by 2015-16.

## **MINING SECTOR**

Mining is one of the most important sectors in Minerals and Metallurgical Industries in India. 80% of Mining is in Coal Sector and the balance 20% is in various metals and other raw materials, such as Iron, Aluminium, Copper, Lead Zinc, Manganese, Uranium, Gold, Non – Metallic, Minerals, etc.

Mining Industry is strategically one of the most important Industries in the Indian economy.

Improving the resource base and exploitation of Minerals resources remains one of the most important geological and economical tasks in India.

## **TECHNICAL CONFERENCE THEME**

### ***TITLED "RESURGENT INDIA – VISION 2020 IN METALS AND MINERALS SECTORS"***

The Technical Conference is scheduled for 28-29 September 2012 at Pragati Maidan, New Delhi.

The Conference will have the following Technical Sessions:

- 1 Minerals Explorations for Coal, Iron Ore and Non-Ferrous Metals
- 2 Issues relating to Surface and Underground Mining.
- 3 Minerals Processing and Beneficiation in Coal, Iron Ore, Non-Ferrous Metals Area.
- 4 Smelting Reduction for extraction and Refining of Ferrous and Non-Ferrous Metals.

- 5 Current and Futuristic Metals and Minerals Technologies.
- 6 Metal Production and Processing Technologies in SME Sector
- 7 Equipment Supply and Infrastructural needs
- 8 Energy and Environment
- 9 Ferro Alloys and Refractories.

**Who should attend?**

- 1 Policy Makers
- 2 Government Officials
- 3 Decision Makers
- 4 Engineers and Professionals
- 5 Equipment Manufacturers and Suppliers
- 6 Consultants, R & D Professionals and Academicians
- 7 Key Personnel's of core and Allied Industries
- 8 Trade Delegations
- 9 Buyer and Sourcing Personnel
